2014-2018
With High Honors

SUMMARY

A highly motivated individual specializing in Big Data Analytics (Data Science). With valuable experience in front-end development, UI/UX design, and data analysis, I am eager to leverage my diverse skill set and enhance my expertise as a frontend developer, UI/UX designer, or data analyst.

WORK EXPERIENCE

AI Tutor
Mindrift by Toloka

April 2024-Present

- Craft, edit, and refine AI-generated prompts and responses for specific domains.
- Validate content accuracy by cross-referencing with trusted sources.
- Collaborate with a team and learn from seasoned AI professionals.
- Optimize AI projects by fine-tuning text generation and evaluating responses.
- Analyze AI outputs rigorously to ensure precision, coherence, and relevance.
- Verify data sources meticulously to uphold the integrity of AI-generated content.

Personalized Internet Ads Assessor
Telus International

October 2023-February 2024

- Analyzes and evaluates the effectiveness of personalized internet ads, ensuring relevance and alignment with user preferences and behaviors.
- Rate personalized internet ads based on user satisfaction.

Front-End Developer, UI/UX Designer, & Software Quality Assurance Tester
Intelliseven Technology Solutions Inc.

August 2023-October 2023

- Creates interfaces with HTML, CSS, and JavaScript for seamless integration and user experience.
- Designs intuitive interfaces, crafting wireframes and prototypes for usability and accessibility.
- Performs rigorous testing, identifying and reporting bugs to ensure software quality and user satisfaction.

Data Annotator
Remotasks

October 2021-June 2023

- Support AI recognition by conducting image analysis, delineating objects with bounding boxes.
- Enhance data categorization by identifying keywords that describe text and image content, aiding AI understanding.
- Facilitate data acquisition by searching and compiling information from varied sources.
- Assist AI comprehension by transcribing text-based content into digital formats for analysis and processing.

IT Technician
GJAX Computer Trading

August 2022-September 2022

- Fixing and assembling computers and laptops

Intern
PLDT Fiber Home

November 2019-March 2020

- Sorting of files
- Seals document
- Prints and photocopies files

I hereby certify that the above information is true and correct to the best of my knowledge.

SINCERELY,
IRA CLARIZ O. LIM
